

FORESTS & WATER

EXPERIMENT 2 WORKSHEET

Experiment 2: Investigating how trees prevent flooding and pollution

RESULTS	Potted Plant (Tree)	Pot of Soil
Volume of runoff		
Colour of runoff		
Presence of particles		

1. Why is there a difference in the volume of runoff from both pots?

2. Explain the difference in colour between the runoff from both pots.

3. Can trees help to prevent and flooding? How?

4. Can trees help to prevent pollution? How
