	<p>Elder <i>Trom</i></p> <p>This is a native, deciduous shrub which grows to a height of 10m in hedges and lanes throughout the country. In late Spring, you can see large clusters of small white or cream coloured flowers, these are followed by small dark purple berries, a food source for many birds.</p>	<p>When I found it</p> <p>Where I found it</p>
	<p>Hazel <i>Coll</i></p> <p>A native, deciduous tree. Downy leaves which are oval-rounded. Hazel nuts are one of the foods associated with the very earliest human settlements in Ireland. Hazel usually lives approx. 70–80 years, but coppicing enables them to live to several hundred years.</p>	<p>When I found it</p> <p>Where I found it</p>
	<p>Foxglove <i>Lus mór</i></p> <p>A native biennial plant. Its flowers are pinky-purple, sometimes white and can be seen from June to August. Known to be poisonous. In folklore, it is known as 'Fairy thimbles', and some thought it unlucky to bring foxgloves into the house.</p>	<p>When I found it</p> <p>Where I found it</p>
	<p>Oxeye Daisy <i>Nóinín mór</i></p> <p>A native, familiar plant that grows between May and September and can be seen on grass verges, along embankments, motorways, and meadows. They have long rigid stems that grow up to 80cm high. It was named Daisy or day's eye because the flower opens up as the sun comes up.</p>	<p>When I found it</p> <p>Where I found it</p>
